Investor Presentation

June 2022

THE LEADER AND INNOVATOR IN TOTAL TALENT SOLUTIONS

Non-GAAP Measures

This presentation contains certain financial measures that are not in accordance with generally accepted accounting principles in the United States ("GAAP") or with rules adopted by the SEC that apply to registration statements under the Securities Act of 1933, as amended, and periodic reports under the Exchange Act. These "non-GAAP financial measures," as defined under the rules of the SEC, are intended as supplemental measures of our operating performance that are not required by, or presented in accordance with GAAP, and are not intended be an alternative to the Company's condensed consolidated financial statements presented in accordance with GAAP. The non-GAAP financial measures included in this presentation consist of (1) Adjusted EBITDA, (2) Adjusted Net Income, (3) Adjusted EBITDA Margin, and (4) Free Cash Flow (which means cash flow from operations less capital expenditures) referenced throughout the presentation. Management believes that the items excluded from Adjusted EBITDA, Adjusted Net Income, Adjusted EBITDA Margin, and Free Cash Flow are significant components in understanding and assessing operating performance. Therefore, Adjusted EBITDA, Adjusted Net Income, Adjusted EBITDA Margin, and Free Cash Flow should not be considered a substitute for net income, cash flows from operating, investing or financing activities, operating margin, or cash flow from operations, as the case may be. Because Adjusted EBITDA, Adjusted Net Income, Adjusted EBITDA Margin, and Free Cash Flow are not measurements determined in accordance with GAAP and are thus susceptible to varying calculations, the Adjusted EBITDA, Adjusted Net Income, Adjusted EBITDA Margin, and Free Cash Flow numbers contained herein may not be comparable to other similarly titled measures of other companies. In addition, our management believes that Adjusted EBITDA and Adjusted EBITDA Margin serve as industry-wide financial measures. The non-GAAP measures contained in this presentation should not be used in isolation to evaluate the Company's performance. A quantitative reconciliation of the Adjusted EBITDA, Adjusted Net Income, Adjusted EBITDA Margin and Free Cash Flow non-GAAP measures identified in this presentation, along with further detail about the use and limitations of certain of these non-GAAP measures, to the most directly comparable GAAP financial measures may be found in the appendix slides to this presentation and on the Company's website at http://ir.amnhealthcare.com.

Forward-Looking Statements

This investor presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include, among others, statements concerning the trajectory of the healthcare industry and economic recovery, future demand for our services and demand within the healthcare industry, duration and severity of labor shortages, our debt and leverage strategies, our capabilities related to our digital customer experience and technology-enabled solutions and analytics, our ability to attract and retain talent and continue to serve the needs of large and growing clients, our ability to deliver long-term profitable growth, our working capital needs and our capabilities to address challenges and trends in the healthcare industry. AMN Healthcare Services, Inc. (the "Company") bases these forward-looking statements on its current beliefs, expectations, estimates, forecasts and projections about future events and the industry in which it operates. Forward-looking statements are identified by words such as "believe," "anticipate," "expect," "intend," "plan," "will," "should," "would," "project," "may," variations of such words and other similar expressions. In addition, statements that refer to performance; plans, objectives and strategies for future operations; and other characterizations of future events or circumstances, are forward-looking statements.

The Company's actual results could differ materially from those discussed in, or implied by, these forward-looking statements. Factors and other cautionary statements that could cause actual results to differ from those discussed in or implied by the forward-looking statements contained in this presentation are set forth in (i) the Company's Annual Report on Form 10-K for the year ended December 31, 2021, (ii) its subsequent periodic reports, current reports, and other SEC filings, and (iii) the cautionary statements included in the Company's most recent earnings release issued on May 5, 2022, including our financial condition and our results of operations, the intensity, impact and duration of and reasons behind the workforce shortages, our ability to attract new clients and the opportunities ahead for AMN and the vital role it plays in healthcare delivery, our ability to anticipate and quickly respond to changing marketplace conditions, such as alternative modes of healthcare delivery, reimbursement, or client needs, and our ability to manage the pricing impact that the labor market and consolidation of healthcare delivery organizations may have on our business.

Be advised that developments subsequent to this presentation are likely to cause these statements to become outdated and the Company is under no obligation (and expressly disclaims any such obligation) to update or revise any forward-looking statements whether as a result of new information, future events, or otherwise.

ESG Is in Our DNA

Our CSR Mission: Deliver Sustainable Value to All Stakeholders by Promoting a Diverse, Inclusive and Supportive Culture That Fosters Innovation and Trust at All Levels of AMN and in Communities We Serve

Investing in Diversity, Equality and Inclusion

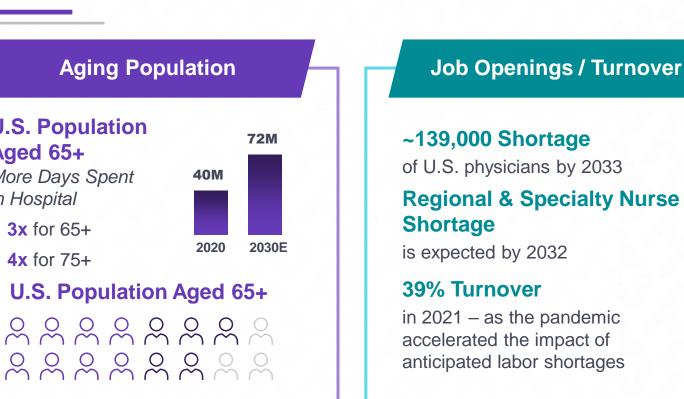

- Named to Bloomberg Gender-Equality Index, Human Rights Campaign Corporate Equality Index, Barron's 100 Most Sustainable Companies, and Newsweek America's Most Responsible Companies
- Honored by Women's Forum of NY as national leader with 56% female corporate Board representation
 - 67% of AMN team members identify as women
 - 60% of leadership roles are held by women
 - 36% of workforce and 25% of leaders identify as people of color
 - 56% of AMN Board of Directors identify as women and 33% of AMN Board is racially diverse
- Increased our Small Business and Diverse Supplier Spend to \$378M
- **Donated more than \$8.9M** to nonprofits focused on advancing social justice, DEI, health, equity, and resilience in healthcare
- Expanded our Employee Resource Groups to 8 engaging one-quarter of our corporate team members

Focused on Sustainability

- Set a goal to be Net Zero by 2024 in our direct operations (Scopes 1 and 2)
- Established Sustainability Champions to advance our ESG program, serving alongside our Diversity Champions and Community Champions
- Committed to measuring our Scope 3 GHG emissions in 2022 and setting science-based targets by 2024

Values-Based, Purpose-Driven Organization Creating a Positive Impact

Well-Positioned to Capture Long-Term U.S. Secular Trends

Healthcare Spend Annual Growth in Healthcare Spend 5.1% Growth in Medicare spending is projected 4.2% to reach +7.2% per year for 2021-30, reflecting faster expected growth in healthcare costs 2021-30E 2021

Sources: U.S. Census, Population Surveys; National Health Expenditure Projections - CMS, 3/22; "The Complexities of Physician Supply and Demand," AAMC, 4/20; "The Future of Nursing 2020-2030: Charting a Path to Achieve Health Equity," National Academy of Medicine, May 2021.

We Are Proactively Addressing These Trends

- Helping clients to have the right clinician, in the right place, at the right time
- · Bringing new solutions that enable clients to optimize workforce mix
- Continuing to build the industry's most powerful healthcare recruiting engine
- Focusing on unparalleled capabilities to serve large health systems gaining share by consolidation
- Sharpening recruiting tools as demand grows faster than labor supply
- Investing more heavily in digital to increase value proposition and efficiency

Property of AMN Healthca

Strong Free Cash Flow Generation

Adjusted Net Income, Adjusted EBITDA & Free Cash Flow (\$M)

Commentary

- Scalable operating model ability to flex cost structure and create operating leverage to drive attractive cash flow and earnings growth
- Strong free cash generation supports balanced capital allocation strategy and future growth
- 207% growth in FCF since 2017 as revenue grew and operating leverage improved
- We project \$70M \$80M annual capital expenditures, or about 1.5% 2.0% of revenue
- Capex budget is approximately 30% 40% maintenance, more than half innovation and digital enhancements

Cash Flows Enable Multi-faceted Growth Strategy

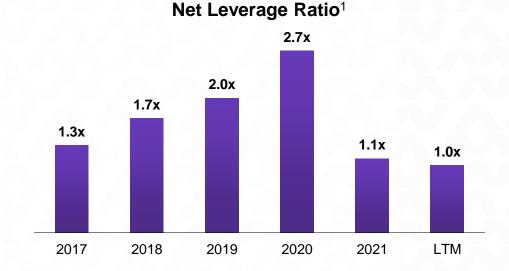

Disciplined, Flexible Balance Sheet

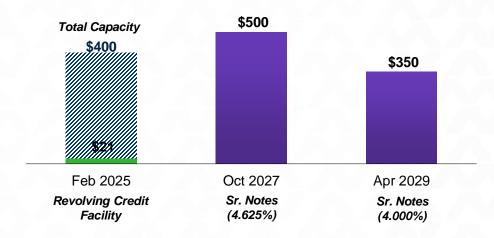

Summary Balance Sheet (\$M, 3/31/22)	
Cash and Cash Equivalents	\$ 113
Total Current Assets	\$ 1,479
Total Assets	\$ 3,249
Total Current Liabilities	\$ 1,148
Total Debt	\$ 850
Total Equity	\$ 1,081
(\$M, 3/31/22)	
Cash and Cash Equivalents	\$ 113
Available Credit ²	\$ 379
Total Available Liquidity	\$ 492

1 Leverage Ratio represents the ratio of the Company's debt outstanding (including the outstanding letters of credit collateralized by the senior credit facility) minus cash and cash equivalents at the end of the subject period to adjusted EBITDA for the twelve-month period at the end of the subject period.

2 Available credit is net of \$21.4 million used as collateral for letters of credit (in green in chart on right).

Debt Maturity Schedule (\$M)

Total Leverage Ratio Objective Is In Range Of 2-2.5x

Balanced Capital Allocation Strategy

Historical Use of Capital

(2017 – Q1 2022)

- Debt Reduction
- M&A
- Reinvestment
- Buybacks

Debt Reduction

- Target net leverage ratio of 2-2.5x
- · Current leverage ratio opens borrowing capacity for future investments

A&M

- · Acquisitions remain a high priority in uses of capital
- · Seek tech-enabled solutions that deepen our expertise

Reinvestment

- Development to drive future growth
- Making IT systems smarter and more integrated

Share Buybacks

- Since 2016, AMN repurchased 4.9 million shares for \$350M ⁽¹⁾
- As of Mar. 31, 2022, \$250M remained authorized for buybacks

(1) Changes in the fair value of equity investments and instruments are recognized in interest expense, net, and other. Since the changes in fair value are unrelated to the Company's operating performance, we exclude the impact from the calculation of adjusted net income and adjusted diluted EPS. (2) A portion of depreciation expense for AMN Language Services (formerly known as Stratus Video, which was acquired in February 2020 and has since been rebranded) is included in cost of revenue. We exclude the impact of depreciation included in cost of revenue from the calculation of adjusted EBITDA. (3) Acquisition, integration, and other costs include acquisition and integration costs, net changes in the fair value of contingent consideration liabilities for recently acquired companies, certain legal expenses, restructuring expenses, and certain nonrecurring expenses, which we exclude from the calculation of adjusted EBITDA, adjusted net income, and adjusted diluted EPS because we believe that these expenses are not indicative of the Company's operating performance. For the three and twelve months ended December 31, 2021, acquisition and integration costs were approximately \$900,000 and \$7,300,000, respectively, expenses related to the closures of certain office leases were approximately \$8,700,000 and \$11,500,000, respectively, and certain legal expenses were approximately \$7,000,000. Additionally, acquisition, integration, and other costs for the three and twelve months ended December 31, 2021 included an adjustment of \$2,264,000 to correct an immaterial out-of-period error identified in the fourth quarter related to the write-off of assets recognized in prior years from costs incurred to fulfill a contract with a customer. For the three and twelve months ended December 31, 2020, net increases in the fair value of contingent consideration liabilities for recently acquired companies were \$6,600,000 and \$4,900,000, respectively, and certain legal expenses were approximately \$20,000,000 and \$21,000,000, respectively. Additionally, acquisition, integration, and other costs for the twelve months ended December 31, 2020 were partially offset by a one-time insurance policy benefit of \$1,601,000. The certain legal expenses primarily relate to increases to the Company's legal reserve during the fourth quarters of 2020 and 2021 for a wage and hour claim.

(4) Adjusted EBITDA represents net income plus interest expense (net of interest income) and other, income tax expense (benefit), depreciation and amortization, depreciation (included in cost of revenue), acquisition, integration, and other costs, restructuring expenses, certain legal expenses, and share-based compensation. Management believes that adjusted EBITDA provides an effective measure of the Company's results, as it excludes certain items that management believes are not indicative of the Company's operating performance. Adjusted EBITDA is not intended to represent cash flows for the period, nor has it been presented as an alternative to income from operations or net income as an indicator of operating performance. Although management believes that some of the items excluded from adjusted EBITDA are not indicative of the Company's operating performance, these items do impact the statement of comprehensive income, and management therefore utilizes adjusted EBITDA as an operating performance measure in conjunction with GAAP measures such as net income.

(5) Adjusted EBITDA margin represents adjusted EBITDA divided by revenue.

(6) During the third quarter of 2018, the Company recorded increases to its legal accruals established in connection with settlement agreements entered into during September and October 2018 in two class actions related to wage and hour claims, both of which were paid during 2019. Since the settlements are largely unrelated to the Company's operating performance, we excluded their impact in the calculation of adjusted EBITDA and adjusted net income. Amounts recorded in prior quarters in these two class actions and legal accruals related to other matters are immaterial and their impact was not excluded in the calculation of adjusted EBITDA or adjusted net income.

(7) **Segment operating income** represents net income plus interest expense (net of interest income) and other, income tax expense (benefit), depreciation and amortization, depreciation (included in cost of revenue), unallocated corporate overhead, acquisition, integration, and other costs, and share-based compensation.

(8) **Unallocated corporate overhead** (as presented in the tables above) consists of unallocated corporate overhead (as reflected in our quarterly and annual financial statements filed with the SEC) less acquisition, integration, and other costs.

(9) The Company records net tax expense (benefit) related to the income tax treatment of the fair value changes in the cash surrender value of its company owned life insurance. Since this change in fair value is unrelated to the Company's operating performance, we excluded the impact on adjusted net income. (10) The consolidated effective tax rate is affected by the recording of excess tax benefits and tax deficiencies relating to equity awards vested and exercised during the period. As a result of the adoption of a new accounting pronouncement on January 1, 2017, the Company no longer records excess tax benefits and tax deficiencies to additional paid-in capital, but such excess tax benefits and tax deficiencies are now recognized in income tax expense. The magnitude of the impact of excess tax benefits and tax deficiencies generated in the future, which may be favorable or unfavorable, is dependent upon the Company's future grants of share-based compensation, the Company's future stock price on the date awards vest in relation to the fair value of the awards on the grant date. Since these excess tax benefits and tax deficiencies are largely unrelated to our income before taxes and are unrepresentative of our normal effective tax rate, we excluded their impact in the calculation of adjusted net income.

(11) **Adjusted net income** represents GAAP net income excluding the impact of the (A) amortization of intangible assets, (B) acquisition, integration, and other costs, (C) certain legal expenses, (D) changes in fair value of equity investments and instruments, (E) deferred financing related costs, (F) tax effect, if any, of the foregoing adjustments, (G) excess tax benefits and tax deficiencies relating to equity awards vested and exercised since January 1, 2017, (H) net tax expense (benefit) related to the income tax treatment of fair value changes in the cash surrender value of its company owned life insurance, and (I) restructuring tax benefits. Management included this non-GAAP measure to provide investors and prospective investors with an alternative method for assessing the Company's operating results in a manner that is focused on its operating performance and to provide a more consistent basis for comparison between periods. However, investors and prospective investors should note that this non-GAAP measure involves judgment by management (in particular, judgment as to what is classified as a special item to be excluded in the calculation of adjusted net income). Although management believes the items in the calculation of adjusted net income are not indicative of the Company's operating performance, these items do impact the statement of comprehensive income, and management therefore utilizes adjusted net income as an operating performance measure in conjunction with GAAP measures such as GAAP net income.

(12) During the first quarter of 2018, the Company recorded a net tax benefit to adjust for an immaterial out-of-period error identified in that quarter related to the income tax treatment of fair value changes in the cash surrender value of its company owned life insurance for years ended December 31, 2015 through December 31, 2017. These fair value changes had not previously been included as a benefit in the tax provision of the related years.

(13) During the year ended December 31, 2017, we recorded a discrete net tax benefit of \$14,039,000 and a discrete tax expense of \$1,000,000 from a remeasurement of our deferred tax assets and liabilities related to the impact of the Tax Cuts and Jobs Act and prior period share based awards, respectively. We excluded these non-cash items in the calculation of adjusted net income as they were unrelated to our prior year's income before taxes.

(14) The Company recorded a restructuring tax benefit during the year ended December 31, 2020, which was related to the acquisition of Stratus Video. Since this benefit is largely unrelated to our income before taxes and is unrepresentative of our normal effective tax rate, we excluded its impact in the calculation of adjusted net income.

(15) Free cash flow represents cash flow from operations less capital expenditures.
