AMN HEALTHCARE ANNOUNCES SECOND QUARTER 2010 RESULTS

SAN DIEGO – (July 28, 2010) – AMN Healthcare Services, Inc. (NYSE: AHS) today announced operating results for the second quarter of 2010. Financial highlights are as follows:

(Dollars in millions, except per share amounts)

	Q2 2010	% Chg Q2 2009	% Chg Q1 2010
Revenue	\$ 149.3	(25%)	4%

Adjusted EBITDA*	\$ 9.7	(46%)	(7%)
Adjusted EPS*	\$ 0.02	(88%)	NM

* See notes (2) and (3) under “Supplemental Financial and Operating Data” for a reconciliation of non-GAAP items.

NM – Not meaningful

Key business highlights for the second quarter are as follows:

- Revenues were up 4% sequentially, compared with guidance of 1 to 3%
- Locum Tenens and Physician Permanent Placement revenues were both sequentially up 8%
- Nurse and Allied revenues were sequentially flat
- SG&A levels as a percentage of revenues remain steady, excluding acquisition-related costs

“The industry appears to be entering a modest recovery phase, with second quarter consolidated revenues growing sequentially for the first time in seven quarters, and exceeding our expectations due to better than anticipated volumes,” said Susan R. Nowakowski, President and Chief Executive Officer of AMN Healthcare. “Although we are experiencing positive indicators and steady progress, we retain a conservative view of the near-term trajectory for healthcare staffing due to the continued high general unemployment and apprehension in the economic environment. We continue to be positive about the industry’s long-term growth prospects and are positioning our service offerings to meet the strategic needs of our clients and their growth and financial objectives.”

In support of its long-term strategy, AMN Healthcare announced earlier today that it has entered into a definitive agreement to acquire the parent company of Nursefinders, Inc. (dba Medfinders), the nation's leading provider of clinical workforce managed services programs. Through its multi-brand strategy, Medfinders also provides travel nurse and allied staffing, locum tenens, physician search services, and home healthcare services, as well as local nurse and allied staffing in support of its managed services programs. The transaction is expected to close in the third quarter of 2010, and additional details of the agreement can be found in a separate press release issued today.

"This acquisition is a natural step in our long-term growth strategy as it directly contributes to the delivery of greater value and innovative workforce solutions to our clients. In addition to enhancing the capabilities of our existing businesses and expanding into new complementary service lines, we will also be able to achieve immediate sales and operating efficiencies. We believe this is the perfect addition to AMN to enhance shareholder value in both the short and long term," added Nowakowski.

Second Quarter 2010 Results

For the second quarter of 2010, revenue was \$149 million, a decrease of 25% from prior year and up 4% from prior quarter. Second quarter revenue for the Nurse and Allied staffing segment was \$76 million, a decrease of 32% from the same quarter last year and up 1% sequentially. The Locum Tenens staffing segment generated revenue of \$65 million, a decrease of 17% from prior year and up 8% sequentially. Second quarter Physician Permanent Placement revenue was \$8 million, a decrease of 7% from prior year and up 8% sequentially.

Gross margin in the second quarter of 2010 was 27.6%, an increase of 60 bps from prior year and a decrease of 30 bps compared to the previous quarter. The improvement as compared to the prior year was driven primarily by an increase in gross margin in the Nurse and Allied segment and the increased revenue mix from the higher margin Physician Permanent Placement segment. The decrease as compared to prior quarter was mainly attributable to a decrease in Nurse and Allied gross margin.

Selling, general and administrative (“SG&A”) expenses for the second quarter of 2010 were 23% as a percentage of revenue compared to 19% in the same quarter last year. Second quarter SG&A declined by \$3 million, or 9%, over the same period in the prior year, and increased by \$3 million, or 8%, as compared to the prior quarter, due in part to acquisition-related costs incurred during the quarter.

As of June 30, 2010, cash and cash equivalents totaled \$41 million, compared to \$27 million as of December 31, 2009. Total term debt outstanding, net of discount, as of June 30, 2010 was \$104 million, with no borrowings on the revolver portion of the credit facility.

Business Trends and Outlook

Going into the third quarter, demand continues to trend up slightly across all business lines. With all business segments anticipating sequential improvement in volumes, consolidated revenue is expected to be up 4-6% compared with the second quarter, excluding the impact of any acquisitions. Gross margin is anticipated to remain sequentially steady.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements include expectations regarding third quarter demand, revenue and gross margin, the industry's growth prospects and company's positioning, the proposed acquisition's enhancement of the company's existing capabilities and expansion into complementary service lines and its impact on sales and operating efficiencies and on shareholder value. The company based these forward-looking statements on its current expectations and projections about future events. Actual results could differ materially from those discussed in, or implied by, these forward-looking statements. Forward-looking statements are identified by words such as "believe," "anticipate," "expect," "intend," "plan," "will," "may" and other similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Factors that could cause actual results to differ from those implied by the forward-looking statements contained in this press release are set forth in the company's Annual Report on Form 10-K for the year ended December 31, 2009 and its other quarterly and periodic reports filed with the SEC. These statements reflect the company's current beliefs and are based upon information currently available to it. Be advised that developments subsequent to this press release are likely to cause these statements to become outdated with the passage of time.

- (1) Segment Operating Income represents net income (loss) plus interest expense (net of interest income), income taxes, depreciation and amortization, impairment and restructuring charges, unallocated corporate expenses, and stock-based compensation expense. Management believes that Segment Operating Income is an industry wide financial measure that is useful both to management and investors when evaluating the company's performance. Management also uses Segment Operating Income for planning purposes. Segment Operating Income is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation and allocation of costs.
- (2) Adjusted EBITDA represents net income (loss) plus interest expense (net of interest income), income taxes, depreciation and amortization, acquisition-related costs, impairment and restructuring charges, and stock-based compensation expense. Management presents adjusted EBITDA because it believes that adjusted EBITDA is a useful supplement to net income as an indicator of operating performance. Management believes that adjusted EBITDA is an industry wide financial measure that is useful both to management and investors when evaluating the company's performance. Management also uses adjusted EBITDA for planning purposes. Management uses adjusted EBITDA to evaluate the company's performance because it believes that adjusted EBITDA provides an effective measure of the company's results, as it excludes certain items that management believes are not indicative of the company's operating performance and considers measures used in credit facilities. However, adjusted EBITDA is not intended to represent cash flows for the period, nor has it been presented as an alternative to income (loss) from operations or net income (loss) as an indicator of operating performance, and it should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. As defined, adjusted EBITDA is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. While management believes that some of the items excluded from adjusted EBITDA are not indicative of the company's operating performance, these items do impact the income statement, and management therefore utilizes adjusted EBITDA as an operating performance measure in conjunction with GAAP measures such as net income.
- (3) Adjusted EPS represents GAAP EPS plus acquisition-related costs, restructuring and impairment charges and non-recurring legal expenses. Management presents adjusted EPS because it believes that adjusted EPS is a useful supplement to diluted net loss per share as an indicator of operating performance. Management believes such a measure provides a picture of the company's results that is more comparable among periods since it excludes the impact of items that may recur occasionally, but tend to be irregular as to timing, thereby distorting comparisons between periods. However, investors should note that this non-GAAP measure involves judgment by management (in particular, judgment as to what is classified as a special item to be excluded from adjusted EPS). As defined, adjusted EPS is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. While management believes that some of the items excluded from adjusted EPS are not indicative of the company's operating performance, these items do impact the income statement, and management therefore utilizes adjusted EPS as an operating performance measure in conjunction with GAAP measures such as GAAP EPS.
- (4) Average travelers on assignment represents the average number of nurse and allied healthcare professionals on assignment during the period presented.
- (5) Revenue per traveler per day and gross profit per traveler per day represent the revenue and gross profit of the company's nurse and allied healthcare staffing segment divided by average travelers on assignment, divided by the number of days in the period presented.
- (6) Days filled is calculated by dividing the locum tenens hours filled during the period by 8 hours. Revenue per day filled and gross profit per day filled represent revenue and gross profit of the company's locum tenens staffing segment divided by days filled for the period presented.
- (7) Leverage ratio represents the ratio of the total debt outstanding at the end of the period to the Adjusted EBITDA for the past twelve months.
